

LEGAL AUTHORITY FOR CONSENTING TO MEDICAL CARE FOR A
CHILD IN DFPS CONSERVATORSHIP

Texas Family Code Sec. 266.004. CONSENT FOR MEDICAL CARE. (a) Medical care may not be provided to a child in foster care unless the person authorized by this section has provided consent.

(b) Except as provided by Section 266.010 [youth aged 16 or older authorized to consent to own care], the court may authorize the following persons to consent to medical care for a foster child:

(1) an individual designated by name in an order of the court, including the child's foster parent or the child's parent, if the parent's rights have not been terminated and the court determines that it is in the best interest of the parent's child to allow the parent to make medical decisions on behalf of the child; or

(2) the department [Department of Family and Protective Services] or an agent of the department.

(c) If the person authorized by the court to consent to medical care is the department or an agent of the department, the department shall, not later than the fifth business day after the date the court provides authorization, file with the court and each party the name of the individual who will exercise the duty and responsibility of providing consent on behalf of the department. The department may designate the child's foster parent or the child's parent, if the parent's rights have not been terminated, to exercise the duty and responsibility of providing consent on behalf of the department under this subsection. If the individual designated under this subsection changes, the department shall file notice of the change with the court and each party not later than the fifth business day after the date of the change.

(d) A physician or other provider of medical care acting in good faith may rely on the representation by a person that the person has the authority to consent to the provision of medical care to a foster child as provided by Subsection (b).

(e) The department, a person authorized to consent to medical care under Subsection (b), the child's parent if the parent's rights have not been terminated, a guardian ad litem or attorney ad litem if one has been appointed, or the person providing foster care to the child may petition the court for any order related to medical care for a foster child that the department or other person believes is in the best interest of the child. Notice of the petition must be given to each person entitled to notice under Section 263.0021(b).

(f) If a physician who has examined or treated the foster child has concerns regarding the medical care provided to the foster child, the physician may file a letter with the court stating the reasons for the physician's concerns. The court shall provide a copy of the letter to each person entitled to notice under Section 263.0021(b).

(g) On its own motion or in response to a petition under Subsection (e) or Section 266.010, the court may issue any order related to the medical care of a foster child that the court determines is in the best interest of the child.
