Child Protective Health Consult Note

*Chief Complaint:

Complaint: Wheezing, neglect

Patient's primary language: English

History received from: No caregiver available; police accompaniment, child

*History of Present Illness

For the purpose of medical diagnosis and treatment as well as child safety and protection, I met with Ben Harris to discuss events leading up to his trip to the emergency room. Ben states that he started coughing and feeling "tight" when he tries to take a breath about three days ago. He has been getting more tired since this problem started because of the work it takes to breathe. He also thinks his nose started to get runny about the same time the coughing started.

Ben does not know when the last day was that he saw his mother. He has not had any medicine or 'puffer' since the beginning of his symptoms stating "they ran out last spring. Mom said I didn't need them anymore". He is also hungry and has been feeding ketchup sandwiches to his siblings; they ran out of food yesterday.

*Review of Systems

General: See HPI

Eyes: Reports no specific concern

Ear, Nose, Throat: **+rhinorrhea**

Cardiovascular: Reports no specific concern
Respiratory: See HPI
Gastrointestinal: **Hungry "I'm starving"**
Genitourinary: Reports no specific concern
Musculoskeletal: Reports no specific concern
Skin: Reports no specific concern
Neurologic: See HPI
Heme/Lymphatic: Reports no specific concern
Allergic/Immunologic: Reports no specific concern

Past Medical/Surgical History

History reviewed. Asthma. Ben reported that he went to the ER two times in December for difficulty breathing due to his asthma, and once in November. History reviewed. No pertinent surgical history.

Family History

Full family history not known.

Social History

Ben and his brother and sister were brought in by police. No other information available at this time.

Other History

Caregiver history of CPS involvement in childhood: Unknown
Caregiver history of kinship placement in childhood: Unknown
Caregiver history of foster care placement in childhood: Unknown
Caregiver history of abuse or neglect in childhood: Unknown

*Allergies

No Known Drug or Food Allergies

Immunizations

Unknown if up to date on scheduled vaccines. Ben does not think he received a flu shot or a COVID vaccine.

*Physical Exam

Weight: 26kg (57 lb 3.2 oz)	
<3%ile (Z= -3 based on WHO (Boys, 2-20 years) weight-for-age data using vitals from 5/25/2024.	

Temp: 97.6 °F (36.4 °C)	Pulse: 134
BP: 105/70	Resp: (!) 40

General: Thin, pale boy in respiratory distress, albuterol nebulizer treatment apparatus in place, which he attempted to remove to answer my questions. I discouraged him. Difficult for Ben to utter complete sentences without pausing to catch a breath, so discussion kept short. Body odor permeates the exam room

HEENT: Head: atraumatic, normocephalic

Eyes: Pupils equal, round, reactive to light, Sclera white

Ears: normal, no lesions or deformities, pinna are uninjured but crusted with dirt.

Nose: normal, no lesions or deformities

Throat: Dry mucous membranes, No injuries to the labial or lingual frenulum, poor dentition with multiple caries in molars, halitosis

Chest/Respiratory: +tachypnea, inspiratory and expiratory wheezes audible in all lung fields. Subcostal, intercostal, and suprasternal retractions noted. No palpable abnormalities to the clavicle or rib cage, all ribs visible,

Cardiovascular: rapid distal pulses 2+, cap refill ~2 sec

Abdomen: soft, scaphoid, non-tender, non-distended, no masses, no hepatomegaly

Genitourinary: normal male genitalia, testes descended bilaterally, circumcised

Musculoskeletal/Extremities: limited mobility due to PIV in RUE. Grossly moving all extremities.

Skin: Unwashed as evidenced by smears of red (presumably ketchup) on shirt, abdomen, as well as smears of dirt. Dirt caked under nails of fingers and toes, toenails long and ragged, and dirt appears ground into the soles of both feet.

Neurologic: awake, alert, grossly normal tone, no focal abnormalities noted.

Chest Xray (portable AP view): + air trapping. No fractures noted.

***Impressions**

Neglect

Findings:

1. Abandonment by caregiver
2. Presentation with URI symptoms, 3 days of increasing difficulty breathing in a child with a known history of asthma, untreated
3. Hunger

***Analysis/Recommendations**

Ben has been abandoned by his mother. He and his siblings have had no supervision, food, or care for more than a day. His youngest sibling is only 1 year old, and 11 year old Ben has been caring for her and their 9 year old brother. Ben is underweight for his age and is poorly kept. He and his siblings have been eating "ketchup sandwiches" and ran out of supplies after their last morning meal.

Further, Ben's asthma exacerbation has been sorely neglected. He presented to the emergency room with respiratory distress without a caregiver and without any treatment for his well known medical problem.

Recommendations:

1. Asthma management (steroids, bronchodilators) as recommended by Emergency Medicine Team.
2. A CPS report has already been made by the police who brought Ben and his siblings in for a medical evaluation. Ben's health and well-being have not been maintained in the home he came from.
3. Forensic nurse notified re: need for photo documentation of Ben's findings.

*History of Present Illness

For the purpose of medical diagnosis and treatment as well as child safety and protection, I met with Robert and his 11 yo Ben Harris to discuss events leading up to this trip to the emergency room.

Robert said that his mom left yesterday, stating "she told me to take care of Rose." Robert has a runny nose that he wiped on his shirt throughout our conversation and is also hungry; Ben has been feeding ketchup sandwiches to his siblings and they ran out of food yesterday. Robert reported that he didn't really like ketchup sandwiches "because the ketchup tastes funny and sometimes there are roaches in it". When I asked him when he brushes his teeth or takes a bath, he replied "I don't know. My mom doesn't make us do that stuff." I asked him if he ever got hit or hurt at home, he told me "She just yells when we don't clean up, but she sleeps a lot of the time."

***Impressions**

Physical abuse

Neglect

Findings:

1. Abandonment by caregiver, unfed, dehydrated (all children have received saline boluses)
2. Contusions in an infant, one of which is patterned like a slap mark
3. Diaper rash

***Analysis/Recommendations**

Rose has been abandoned by her mother. She has not been fed and is poorly kept.

Further, she has contusions in protected areas, one of which is a pattern mark consistent with a blow to her buttock by an adult hand. This is worrisome for forceful violent handling. Rose is not safe in an environment where these injuries have been inflicted.

Recommendations:

1. A CPS report has already been made by the police who brought Rose and her brothers in for a medical evaluation. Rose's health and well-being and safety have not been maintained in the home she came from.
2. Follow up in Child Protective Health Clinic follow up for skeletal survey, which is not available this evening.
3. Forensic nurse notified re: need for photo documentation of Rose's findings.

PSYCHOLOGICAL EVALUATION

NAME: Kathy Price

SEX: Female

DOB: February 14, 1994

AGE: 30

DATE of EVALUATION: June 17, 2024

REASON FOR REFERRAL: Psychological Evaluation

REFERRED BY: CVS Caseworker, Child Protective Services

BACKGROUND INFORMATION:

Kathy Price is a 30-year-old female who was referred for a psychological evaluation by her CPS Caseworker. Kathy Price was seen in the offices of Texas Psychological Associates on 06-17-24 and was explained the purpose of the evaluation and the disposition of the final report. She indicated her understanding both verbally and by signing a consent form and a release of information form. The Department reported that Kathy Price has a history of mental health issues and she reported to the Department that she has a diagnosis of depression. The Department indicated that late on May 24, 2024, Kathy Price was arrested for theft of baby formula. The Caseworker indicated that Ms. Price neglected to contact anyone to provide care for her three minor children while she was out of the home for an unknown amount of time prior to her arrest. A neighbor called law enforcement with concerns that the children of Ms. Price were unsupervised. Law enforcement arrived at Ms. Price's apartment and took the children to the local ER for an assessment. Based on the ER Doctor's concerns related to neglect of the children, DFPS was called. The Investigations Caseworker took the children into the custody of the Department and placed the children in a foster home. Ms. Price spent several days in jail and was later also charged with Abandonment with Intent to Return. Upon Ms. Price's release, the Department reported that she became uncooperative, irritable, rude, and refused to respond to questions about her past history. There is a lengthy history of DFPS involvement with Ms. Price, dating back to 2013, where FBSS intervened to provide support to Ms. Price and her child, Ben. The most serious DFPS history prior to the removal of Ms. Price's children in May 2024 involves a RTB for Neglectful Supervision of Ben Harris, Ms. Price's eldest son, when he was 3 years old, and another RTB for Neglectful Supervision of Ben Harris (then eight) and his younger brother, Robert Harris (then nearly six). Ms. Price has criminal history, as do Jason Harris and Ernie Price, the fathers of both of her sons. Ms. Price claims not to know the identity of the father of her youngest child, Rose Price (who is one year old).

After the current removal of her children, the court ordered the Kathy Price complete a family service plan, which includes a provision to maintain a household free from drug use or illegal activity. Since her children were removed, the Department reports that Ms. Price continues to drink alcohol and smoke marijuana.

Kathy Price reported at the start of this evaluation that the reason CPS is involved in her life is due to “their mistake.” She stated that Ben is old enough to take care of his younger siblings and that her next door neighbor “had it in for her” when the neighbor called law enforcement to report that the children had been left alone. Ms. Price also stated that the Investigations Worker and the Conservatorship Worker “are making lots of assumptions” about her based on her CPS history and that “they overreacted.” It is Kathy Price’s goal to have her children returned to her care. As part of her service plan for the Department, Ms. Price stated that she has received a substance abuse evaluation that recommended outpatient substance abuse treatment. She is also to participate in parenting classes, drug testing, and individual and Family Counseling. Kathy Price stated that she will start attending AA and NA meetings this evening.

A review of Ms. Price’s social history reveals the following: Ms. Price is the second oldest of seven children born to Cathy Ythak in Small City, Texas. Ms. Price’s father is unknown but she had a step-father, Jim Jones, who fathered four of her other siblings. She struggled in school and began the evaluation process for special education services when she quit going to school. Ms. Price left home at the age of 15. She moved back and forth between her mother’s home and friends’ residences for about a year. At one point, she moved in with her older sister, Carol Hill. While living with Ms. Hill, Kathy Price completed her GED and found employment at Belle Taco. When she was 17, Ms. Price left the Hill home stating that Ms. Hill had “too many rules.” Ms. Price moved in with her twenty-six year old co-worker, Jason Harris, in September of 2011. On October 31, 2012, Ms. Price gave birth to Ben, son of Jason Harris, and Ms. Price and Mr. Harris married in December of 2012.

Ms. Price’s relationship with Mr. Harris was very turbulent. He often physically and emotionally abused her. She called the police several times to intervene. In June 2013, Ms. Price called the police, but when they arrived she refused to cooperate with the investigation. Ms. Price reported that she met Ernie Price around November of 2013 and that he was a friend that she could confide in. That friendship developed into a relationship, and Ms. Price gave birth to a son, Robert Price, in May 2015. Ms. Price reports that, while she was still married to Mr. Harris at the time, they were living separate lives. In January 2016, a neighbor called the police after having heard Mr. Harris beating Ms. Price. When police arrived they placed Mr. Harris in custody but Ms. Price failed to provide a statement and no charges were filed. In February 2016, Jason Harris beat Ms. Price, breaking her arm and orbital bone. Ms. Price was in the hospital for five days. Jason Harris was convicted of Assault Family Violence and received probation as Ms. Price refused to appear in court. Ms. Price filed for divorce shortly after she was released from the hospital in February 2016. During the time she lived with Jason Harris, Ms. Price worked part-time for about five months at Belle Taco. She provided child care for a neighbor’s two year old daughter for three months until the family moved. Ms. Price reports that Jason Harris never beat her unless he had been drinking. His drinking escalated over time and he began to use marijuana and cocaine on a regular basis. Ms. Price drank socially with Mr. Harris and experimented with smoking marijuana. Ms. Price and Mr. Harris divorced in late 2016.

In March of 2016, Ms. Price and her children moved in with Ernie Price and his extended family. Kathy and Ernie Price were married June 1, 2017. At the time of their marriage, Mr. Price was employed by Overland Trucking. Ms. Price had numerous conflicts with her mother-in-law, Anita Dashee. Ms. Dashee complained that Kathy Price failed to take proper care of her children, did not help with the cleaning, and drank during the day. Ms. Price believed that Dashee was over-controlling and didn’t want to be bothered by having another woman in her home.

In December 2017, Ms. Price was arrested for driving while intoxicated after being at a club with several of her friends. At the scene of the arrest, Ms. Price became hysterical stating that she had forgotten Ben and Robert while at the club. The children were found to be with Ernie Price. After her conviction, Ms. Price was ordered into alcohol counseling. She never completed her counseling sessions, stating that she had transportation issues.

After her arrest, her relationship with Mr. Price deteriorated. Ms. Price believed he was seeing other women. On March 1, 2021, she followed Ernie Price to Great City Pub in Great City. She observed Mr. Price meeting with a woman. Ms. Price confronted the woman outside the club. The confrontation led to physical violence; the other woman received a black eye and a loosened tooth. Kathy Price was arrested and charged with misdemeanor assault. When the victim failed to show up to the trial, Ms. Price received one year probation with the condition that she receive treatment and counseling. She entered into inpatient treatment with her sons. She successfully completed treatment and received special recognition as being "a star client." Kathy and Ernie Price divorced in October of 2022. Ms. Price moved between various family members and friends while the divorce was pending. She moved in with her friend Patsy Smith in the summer of 2022, but moved out after about six weeks because of tension between her and Patsy when she started dating Patsy's brother. Ms. Price stated that the relationship lasted about 3 months and was not serious.

Rose Price was born on 03/28/2023. Ms. Price reports that she did not know the name of Rose's father. After Rose's birth, Ms. Price got a part-time job as at Burger Queen. The children stayed with a neighbor during the time that she was working. Ms. Price lived in apartment at 123 Broadway St. with her three children.

At this time, Ms. Price stated that the two older boys are placed with family members and that the baby, Rose Price, is in a foster home. Ms. Price reported that she has had visitation approximately once weekly with her children since they were removed by the Department and is allowed to have Face Time calls with them every night. She claims that her transportation is "spotty" and that she loves to see her children but "can't always get there." Ms. Price also stated that she loves her children, and "No one has ever been there for me, I've always been on my own. Reading and writing are too hard. I only drink socially. Some of the people I hang around smoke marijuana, and I think I get it in my system from their smoke. My kids mean everything to me. CPS has always had it out for me because of the way I was raised. I have had at least ten different caseworkers over the years and they can't seem to get it together. I completed probation and did what they told me to do."

A review of Kathy Price's legal history reveals a pending legal charge of theft and abandonment with intent to return from May 2024, and past criminal history including the following: 1) conviction of DUI, after her arrest for same in December 2017; and 2) Conviction of Assault and Public Intoxication, March 2021. A review of her medical history reveals no serious illnesses or hospitalizations. A review of her family history for mental health or substance abuse issues reveals her report of having some family members with mental health disorders. Ms. Price's caseworker states Ms. Price will begin therapeutic services with ABC Family Counseling this month. Ms. Price's mental health history reveals she was admitted for inpatient psychiatric treatment at Great City Hospital on 11-18-23 for three days. She stated that she was suicidal and had thought about taking an overdose. While hospitalized, Ms. Price was prescribed Zoloft and Trazodone and given a diagnosis of Major Depression. A psychiatrist Ms. Price recently saw revised some of her medication and she is currently taking Seroquel, Depakote, and Trazodone.

A review of Kathy Price's alcohol and substance abuse history reveals the use of alcohol and marijuana. She began drinking alcohol at the age of 13. Kathy Price stated she may have had "a drink or two" when she was pregnant with Rose Price and that following the birth of her daughter, she had postpartum depression. She began drinking alcohol daily for two months following her daughter's birth. Her usual pattern of alcohol use involved having a few beers, one time a week. However, Kathy Price stated that, after her children were removed, she began to drink a 12-pack or more of beer, four times a week upon her release from jail. Her last use of alcohol was on 06-14-24. She began smoking marijuana at the age of 14 and used marijuana daily for the next six months. Kathy Price described using marijuana "socially" from the age of 15 until she quit using marijuana at the age of 21. She reported a one-time use of cocaine at the age of 19. Kathy Price has received one-time inpatient services for substance abuse issues. Ms. Price identified her support system as her family and friends, especially her sister, Carol Hill.

TESTS ADMINISTERED:

Mental Status Evaluation
Slosson Intelligence Test-Revised
MMPI-2
FIRO-B
Axis II Checklist
House-Tree-Person
Sentence Completion Inventory
Psychosocial Assessment
Clinical Interview

SUMMARY OF TEST RESULTS:

Kathy Price presented as a casually-dressed and appropriately-groomed 30-year-old female who walked with a normal gait. She had no visible scars or other physical stigmata. She did have a visible tattoo on her right foot. Both receptive and expressive language skills were well-developed. She spoke in a soft voice, with normal rate and fluency. Thought processes were logical and sequential, with no evidence of loose associations or tangential thinking. Attention span and focus were adequate, with appropriate eye contact. Kathy Price was oriented x3 and had well-developed remote, recent, and immediate memory skills. Her arithmetic skills were in the low average range, as she performed serial 3's in a slow and deliberate fashion. Her overall fund of knowledge was adequate. Ms. Price was able to demonstrate abstract reasoning skills by describing similarities between different objects. She described her typical mood as being "blah, and at times like a roller coaster." It should be noted that Kathy Price was tearful at several points during her interview. Judgment skills were defective, as Ms. Price responded that if she were the first person in a crowded movie theater to see smoke and fire she would "probably freak out." Insight was incomplete, as the only things Ms. Price could think of that she might need to work on to improve her life were her anger management and counseling. She denied any history of delusions or hallucinations. She also denied any past suicide attempts, but indicated that she has previously had thoughts of suicide and at one point had pills in her hand, but did not take them. Kathy Price denied any recent suicidal ideation. A review of her past use of drugs and alcohol was included earlier in this report. She does smoke cigarettes; averaging one and a half to two packs a day. I encouraged Ms. Price to smoke outside of her home and automobile in order to protect children from exposure to secondhand smoke.

Intelligence test scores on the Slosson Intelligence Test-Revised included a mental age of 16.5 years and a resulting IQ of 84. This score falls in the Low Average range of intellectual functioning and corresponds to a percentile rank of 16. It is predicted that Kathy Price's IQ will fall between scores of 77 to 91 at a confidence level of 95%. Current results are consistent with her reported academic history of having made mostly B's and C's in school and having earned her GED in 2012. She did receive special-education support through most of her school career for math and reading. Ms. Price should have the necessary intellectual skills to be able to comprehend and potentially benefit from any classes or programs recommended by CPS.

Validity and clinical scale T-scores on the MMPI-2 included the following: L – 47, F- 120, K – 30, Hs - 63, D – 86, Hy – 58, Pd – 87, MF – 60, Pa – 107, Pt – 83, Sc – 90, Ma – 62, Si - 79. Her validity scale patterns indicated that Kathy Price may be experiencing acute and significant psychological distress. Clinical scales indicate that she exhibited a general sadness and depressed mood about her life or herself. She may also be experiencing agitation, anxiety, and anhedonia. Her affect is likely to be blunted or inappropriate. Kathy Price sees little opportunity for improving her circumstances, which further depresses her mood. She is

easily frightened and generally apprehensive. She currently worries about something or someone. Ms. Price's feelings are easily hurt and she is inclined to take things hard. She may have a low frustration tolerance with other people and often has serious disagreements with people close to her. It may make her angry when people give her advice or hurry her. She also gets angry with herself for giving in to others too much. Ms. Price is likely to be unreliable, egocentric, and may have difficulty learning from past experiences and planning ahead. She is also fighting against something, which may be some form of conflict with family members or with authority figures. These conflicts may not necessarily be acted out overtly, but her rebelliousness and anger toward others can be readily apparent even in these cases. Although Ms. Price may make a good initial impression, the problematic features in her interpersonal relationships will surface in longer interactions or under stress. Ms. Price is likely to be suspicious, hostile, and hypersensitive. She is socially introverted, shy, and insecure. In addition, she may withdraw from and avoid significant others, which only serves to exacerbate her problems because others might be able to help her.

Results of the FIRO-B included the following scores: Expressed Inclusion – 3, Wanted Inclusion – 0, Expressed Control – 2, Wanted Control – 2, Expressed Affection – 1, Wanted Affection - 1. All of these scores are in the low range. Her low Affection scores mean that she is not only cautious about expressing affection, but is most comfortable when people do not attempt to become emotionally involved with her. Low scores do not mean that she can never form a close relationship, but rather that it is difficult for her to do so. Her pessimistic orientation towards affection serves to protect her from being hurt. In the Inclusion area, she further protects herself by moving away from people. She is uncomfortable around most people, even in casual settings. She is likely to be very selective with whom she does associate. Kathy Price may reject others before they have a chance to reject her. It is only after she can trust another person that she will take the risk of becoming emotionally involved. In the Control area she not only avoids making decisions and taking on responsibility, but is also most comfortable when others do not attempt to control her. While she does not tell others what to do, at the same time she does not want others to tell her what to do. She has doubts about her ability to handle new areas of responsibility. Before taking on a new area, she needs to be certain of what she is doing. If she feels pushed or rushed, her level of anxiety will increase and she may engage in avoidance responses that she has learned.

Statements on the Axis II Checklist are organized into various groups which correspond to the different personality disorders on DSM-IV, Axis II. Ms. Price was asked to answer *yes* or *no* to 184 self-descriptive statements involving possible thoughts, feelings, and behaviors. She indicated as to whether each statement was an accurate reflection of herself. Kathy Price had high scores on several personality groups, including the borderline personality, the paranoid personality, and the dependent personality. Some of statements on these groups which were endorsed by Kathy Price as being accurate for herself included the following: I often act without thinking, I often feel angry, I feel empty or hollow inside, I often feel bored, I feel irritable, I have made suicide threats, I worry that people whom I care about will leave me, I feel misunderstood, I spend more money than I can afford, I use alcohol or marijuana, I often feel unsure of who I am or what I want, I have blackouts or lapses in memory, I am impulsive, I am self-punishing, I have many enemies, People want to harm me, I am unable to trust others, I have difficulty forgiving others, People pretend to be my friend, Confiding in others is difficult, I often find people annoying, I have to figure out what others really mean, People are secretly putting me down, I worry about my partner's faithfulness, I do not like to be criticized, People talk behind my back. On the dependent personality cluster, she endorsed these statements: I am not self-confident, I have difficulty making decisions, I often do things for others that I really do not want to do, I am afraid of being without someone, I avoid conflict with others, I distrust my own judgment, I feel useless, I feel inferior, I find it hard to disagree with people close to me, and I pretend to agree with others to avoid being disliked by them.

A projective personality test was given in the form of the House-Tree-Person drawing test. Her drawing of a house included nonessential details, which can indicate hypersensitivity regarding her home and family situation, as well as a need to control her primary environment. A small door on the front of her house suggested a reluctance to allow access to herself, as well as feelings of inadequacy. The small overall size of her house indicated a tendency to withdraw, as well as feelings of inadequacy. Her drawing of a tree appeared to be that of an apple tree. This can reflect regression, immaturity, and suspiciousness. A negligent treatment of branches on her tree can indicate unpleasant interpersonal relationships. She drew the sun in the upper corner of the page, which may reflect inadequacy in relating to authority figures. This has also been produced in the drawings of dependent women, which would be consistent with her responses on the other personality tests. Her drawing of a person omitted the ears, indicating a desire to shut out criticism. Large arms on her drawing may indicate the need for strength and power. Unusually-large eyes can indicate suspiciousness and anxiety. Unusually-large hands may indicate a need to compensate for feelings of inadequacy. It can also suggest possible impulsivity.

A final projective personality test was the Sentence Completion Inventory. Kathy Price's responses indicated that she feels that her past boyfriend seldom "pays attention to me." When the odds are against her "I play with kids." She sees the future as looking "fuzzy." She stated that her mother "was a decent person but couldn't give me what I needed." Ms. Price would like to forget the time that "I was married to Jason Harris." She believes that she has the ability to "do anything I want to do." She looks forward to "getting my kids back." She thinks that most men "are pigs and liars." Her greatest mistakes were "getting my kids taken from me." She stated that someday "I will travel the world." If she were young again "I would do things differently." When she was younger she felt guilty about "smoking pot." She stated that her father "is nothing." What she wants most out of life "is a good home for my kids." Her strongest childhood memory "was my dog." The worst thing she ever did "was lose myself." Finally, Kathy Price indicated that she will "fix everything and make it better."

DIAGNOSTIC IMPRESSIONS:

Axis I:	296.33	Major Depressive Disorder, Severe, Without Psychotic Features.
	304.80	Polysubstance Dependence.
	315.00	Reading Disorder (by History).
	995.54	Physical Abuse of Child (Victim).
	995.53	Sexual Abuse of Child (Victim).
	995.81	Physical Abuse of Adult (Victim, by Partner).
Axis II:	V61.21	Neglect of Child.
Axis III:		Deferred.
Axis IV:		Current stressors: Depression, chemical dependence, and separation from children.
Axis V:		GAF = 45 (current).

CONCLUSIONS AND RECOMMENDATIONS:

Results of psychological testing indicate that Kathy Price is currently functioning in the Low Average range of intelligence with an IQ of 84, which corresponds to a mental age of 16.5 years and a resulting percentile rank of 16. It is predicted that her IQ will fall between scores of 77 to 91 at a confidence level of 95%. These results are consistent with her reported academic history of having made average grades in school. Ms. Price should have sufficient cognitive skills to be able to comprehend and potentially benefit from any classes or programs recommended by CPS. Personality testing indicated that Ms. Price is experiencing significant emotional distress characterized by a dysphoric mood, agitation, anxiety, and anhedonia. She

is likely to have a blunted or inappropriate affect. Kathy Price was tearful at several points during her assessment. She is pessimistic about the opportunity of improving her circumstances, which may increase her depression. She tends to be hypersensitive to the reactions of others and her feelings are easily hurt. She often feels irritable, angry, and may have disagreements with family members and authority figures. Ms. Price reported that she has problems with attention and concentration and is lacking in self-confidence. She often feels inferior, insecure, inadequate, and has difficulty at times making decisions. She may feel helpless when she has to make some important decisions. Kathy Price has some paranoid thoughts and feelings and may think that strangers are looking at her critically or talking behind her back. Ms. Price is extremely socially introverted and uncomfortable around most other people. At times her behavior may be unpredictable and inappropriate, which also makes others uneasy around her. She is usually distrustful of others and avoids serious emotional relationships. Ms. Price generally feels apathetic, isolated, and withdrawn, and believes that no one understands her.

Kathy Price reported that it was recommended for her to enter an outpatient substance abuse rehabilitation program by an evaluation completed at Alamo Substance Abuse Services. Results of this evaluation strongly support that recommendation. If the treatment facility could address the dual issues of not only substance abuse dependence, but also her mental health issues of Major Depression, this would be beneficial. Ms. Price last used alcohol the day before this evaluation and marijuana three days before the evaluation. Ms. Price has apparently made no attempt to discontinue her drug use on her own or seek the help of family and community support. This is in spite of the fact that she is involved in an open case with CPS and that they recently removed her children. Her unfortunate response to this has been to intensify her drug use.

Following outpatient substance abuse rehabilitation and treatment for depression, Ms. Price will need continued therapeutic treatment in order to learn to live a sober lifestyle. Unfortunately, unless Kathy Price receives and fully participates in the court-ordered services and can maintain an alcohol and drug-free lifestyle with no domestic violence, Kathy Price would be returning to a relationship that would place her at high risk. She would be at high risk not only for a drug relapse, but also for continued domestic violence and would be in a place where her children might not be returned. It is hoped that during her treatment process that her past childhood issues of extensive physical and sexual abuse can be addressed and hopefully resolved. Kathy Price may need long-term individual therapy for the indefinite future. She needs to develop further understanding regarding how her past abuse issues may be impacting her judgment, substance abuse, relationship choices, and her parenting skills. Kathy Price will also need to demonstrate stable employment, an adequate home, and a sufficient budget to support her children and herself. She will also need to demonstrate the diligence in attending 12-step meetings, utilizing a sponsor, and participating in random drug testing following her release from inpatient treatment. In conclusion, Kathy Price presents with significant personal challenges. These challenges involve her own abuse history, alcohol and drug addiction, and a relationship which involved long-term domestic violence. At this point her children will continue to be better served in foster care or with an appropriate family member until such time that Ms. Price has successfully completed her services and shown consistent progress in all areas. It is obvious that her service plan should be of sufficient length to ensure that these recommendations have been realized. With these considerations in mind, Kathy Price's prognosis for long-term adjustment is seen as guarded.

Criminal History of Kathy Price

CAUSE NO. C-1-CR-21-123321

THE STATE OF TEXAS
COUNTY OF SAN GABRIEL

IN THE MUNICIPAL COURT
GREAT CITY

AFFIDAVIT FOR WARRANT OF ARREST AND DETENTION

The undersigned Affiant, who after being duly sworn by me, on oath, makes the following statement:
I have good reason to believe and do believe that:

KATHY PRICE DOB 02/14/1994

On or about the 1st day of March 2021, in the incorporated limits of Great City, San Gabriel County, Texas, did then and there commit the offense of:

Assault Bodily Injury (Misdemeanor A)

I, M. Friendly, Affiant, was driving Car 54 on routine patrol in Charlie Sector at 2300 on March 1, 2021 when I received a dispatch of a disturbance at the Great City Pub. Dispatch reported a confrontation between two females outside the bar in the parking lot.

Upon arrival, I witnessed a large crowd of people surrounding two females who appeared to be fighting. I called for back-up and my supervisor. One female with bright orange hair began to cry and screamed that the other female had assaulted her, the black haired woman began to lunge at the victim claiming that "she stole my man and she gets what's coming to her."

I restrained the black haired woman until my back-up arrived. EMS was called as the orange hair female was bleeding from her face and head. After the two females were separated, I spoke to the victim (orange haired woman). She identified herself as Doe Jayne. She stated that she had met a friend of hers at the bar where she had two beers and had been dancing and socializing. One of her friends offered her a ride home. As they were leaving the bar, the defendant jumped from behind a parked vehicle and began to scream at her. The victim reported that the assailant began to swing wildly at her with her fists. Ms. Jayne reported that, at one point, the suspect kicked her in the shin, causing great pain. Ms. Jayne further stated that the suspect struck her in the head and face several times. Victim began to become more agitated vowing revenge on the suspect for assaulting her.

I asked Ms. Jayne if she knew the other woman. She stated that, while she wasn't certain, she believed that the assailant was the former girlfriend of one of her friends (Ernie Price) who had offered her a ride home. I was unable to interview Ernie Price as it appears that he left the scene as soon as the confrontation began.

EMS arrived and evaluated Doe Jayne and determined that she needed to be transported to the emergency room. Before transport, I provided Ms. Jayne with a copy of my business card, and I requested that she contact the police department to provide a statement.

After Ms. Jayne was transported, I spoke with Kathy Price who was seated in the back seat of my patrol car. I asked Ms. Price if she wanted to tell me her side of the story. Ms. Price began to cry and told me that she had hit "that floozy" and only wished she had hit her harder. She stated that she had suspected that her husband was "stepping out on her." She stated that she followed him the Great City Pub. When she walked inside the pub she saw Ms. Jayne "all up on her man," and had to go back outside to calm down before she "lost it on them." She stated she just wanted to talk to the orange haired woman and let her know that she was breaking up a family, but when she saw her come out of the bar all cozied up to her man with a smirk on her face, all she wanted to do was slap it right off her.

As Ms. Jayne made a complaint of pain, I placed Kathy Price under arrest for Assault Causing Bodily Injury. I secured Ms. Price in the back of my patrol care to await transport.

IN THE COUNTY COURT AT LAW

VS

NO. 13Kathy Price**DEFENDANT'S PLEA OF GUILTY, NOLO CONTENDERE, WAIVER & STIPULATION**

Now comes the defendant in open Court in the above entitled and numbered cause represented by his attorney with whom he has previously consulted and makes the following voluntary statement:

1. That I am sane and that I understand the nature of the charges contained in the information in this cause.
2. That the court has advised me orally or in writing of the consequences of a plea of guilty.
3. That I have the right to a trial by jury whether I plead "guilty," "not guilty," or "nolo contendere."
4. That I have the right to remain silent but if I choose not to remain silent, anything I say can be used against me.
5. That I have the right to be confronted by the witnesses against me whether I have a trial before the Court or the jury.

However, I desire to waive and do waive the following rights:

1. Waive the reading of the information.
2. Waive the right to be arraigned.
3. Waive the right of trial by jury and request the consent and approval of the Court and of the attorney for the State to such waiver.
4. Waive my right to remain silent.
5. Waive the right to be confronted with the witnesses against me and request the approval of the Court to the stipulation of evidence by waiving the appearance, confrontation and cross-examination of witnesses, or by my further consenting to the introduction of testimony and evidence by stipulation into the record by the attorney for the State by oral stipulation, or by affidavit, or by written statements of witnesses and any other documentary evidence.
6. Waive the ten-day period for preparation after appointment of counsel and the ten-day period in which to file written pleadings after arrest.
7. Waive the right to a pre-sentence report and request that none be made.

I further understand that any recommendation of the prosecuting attorney as to punishment is not binding on the Court. That where there is a plea bargain agreement and the punishment assessed by the Court does not exceed the agreed recommendation, I do not have the right to appeal without permission of the Court except for those matters raised by written motions filed prior to trial.

FOR DEFERRED ADJUDICATION ONLY

I am aware that at any time during this period of probation, the Court may issue a warrant for violation of any of the conditions of this probation and cause me to be arrested. I may be arrested by any probation officer, police officer, or other officer with power of arrest with or without a warrant upon the order of the judge of such court to be noted on the docket of the court. I may be detained in the county jail or other appropriate place of detention until I can be taken before the court. The officer shall report such arrest to the court immediately.

I am aware that upon violation of a condition of this probation, I am entitled to a hearing limited to the determination by the court of Whether it proceeds with an adjudication of guilt on the original charge. No appeal may be taken from this determination. After an adjudication of guilt, all proceedings, including assessment of punishment, pronouncement of sentence, granting of probation and my appeal continue as if the adjudication of guilt had not been deferred.

I request the Court to consider probation any sentence imposed, on the issue of punishment agree that the pre-sentence investigation report of Community Supervision & Corrections may be considered by the Court.

I understand that if I am not a citizen of the United States that my plea may result in deportation, the exclusion of admission to this country, or denial of naturalization under federal law. There have been no promises made to me by my defense attorney, the prosecutor or the Court concerning any stay in the United States.

I have (not) been committed to a mental institution (nor do I) (but I do not) presently have mental or emotional problems, and I believe that I am competent to stand trial and the attorney for the defendant herein acknowledges that counsel believes the defendant is competent and able to assist counsel in the preparation of the defense and that defendant appears to be sane and competent.

I further acknowledge and understand the following admonitions which have been explained to the defendant by the defense attorney prior to an oral plea of guilty or nolo contendere.

That the defendant is charged with a Class A misdemeanor which has a punishment range of:

- a. by confinement in the Travis County jail for a period of not less than 1 yr. or more than 1 yr.

and a fine not to exceed \$5,000

b. Other -

I further understand the admonitions of the Court and I am aware of the consequences of my plea. I herein admit/ do not contest that I committed the acts alleged in the information in this cause. I plead guilty/no contest to the offense of Assault Causes Bodily Injury- Misdemeanor A. My plea is given freely and voluntarily.

JUDGMENT OF COMMUNITY SUPERVISION

On the 15th day of JULY, 2021, this cause was called for trial. The San Gabriel County Attorney, the above named Defendant, and the Defendant's attorney, EVAN JONS appeared and announced ready for trial. The defendant was arraigned and entered a plea of guilty/not guilty/nolo contendere (circle one) to the charge set forth below and waived trial by jury. The Court admonished the Defendant as required, heard Defendant's plea and any evidence admitted thereon, and found that the Defendant is guilty of the offense set forth below.

On the 15th day of JULY, 2021, the Court further found that the ends of justice and the best interests of the public as well as the Defendant will be served by suspending the imposition of the sentence and placing the Defendant on supervision as herein provided.

IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that this Defendant be and is hereby found guilty of the offense of ASSAULT "A"; that the Court assesses punishment at confinement in the County Jail for a period of 1YR and a fine of \$ 600.00 together with all costs of Court incurred in this cause.

IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that imposition of the foregoing sentence be suspended; that Defendant be placed on supervision for a period of 2 YRS from this date; that \$ 500.00 of the foregoing fine be probated; and that the supervision granted herein be on the terms and conditions that you Defendant shall:

- (1) Commit no offense against the laws of this or any State or of the United States.
- (2) Avoid injurious or vicious habits.
- (3) Avoid the use of all narcotics, habit forming drugs, alcoholic beverages, and controlled substances.
- (4) Avoid persons or places of disreputable or harmful character.
- (5) Report to the supervision officer as directed by the judge or the supervision officer and obey all orders of the Court and the rules and regulations of the Community Supervision and Corrections Department.
- (6) Refrain from disorderly conduct, abusive language, or disturbing the peace while present at the office of the Department.
- (7) Permit the Supervision Officer to visit you at your home or elsewhere.
- (8) Work faithfully at suitable employment as far as possible.
- (9) Do not change residence without permission and report changes of employment to supervision officer as directed.
- (10) Remain within SAN GABRIEL County [or another county] or State of Texas) unless given permission to depart by the Supervision Officer.
- (11) While on community supervision, you must have on your person at all times a current, valid Texas Department of Public Safety photo identification card or a valid Texas Department of Public Safety photo driver's license. You must obtain this photo identification within thirty (30) days of the date of your community supervision.
- (12) Support your dependents.
- (13) Submit a urine or breath specimen at the direction of the Supervision Officer and pay all costs if required.
- (14) Pay to and through the Centralized Collections of the San Gabriel County Tax Office, in one lump sum or in installments, as set forth in the collection schedule, the following:

- a. Court Costs \$ To be determined
- b. Fine \$ 1,000.00
- c. Attorney Fees \$ 300.00

THE STATE OF TEXAS

IN THE COUNTY COURT AT LAW

VS

NO. 13Kathy PriceDEFENDANT'S PLEA OF GUILTY, NOLO CONTENDERE, WAIVER & STIPULATION

Now comes the defendant in open Court in the above entitled and numbered cause represented by his attorney with whom he has previously consulted and makes the following voluntary statement:

1. That I am sane and that I understand the nature of the charges contained in the information in this cause.
2. That the court has advised me orally or in writing of the consequences of a plea of guilty.
3. That I have the right to a trial by jury whether I plead "guilty," "not guilty," or "nolo contendere."
4. That I have the right to remain silent but if I choose not to remain silent, anything I say can be used against me.
5. That I have the right to be confronted by the witnesses against me whether I have a trial before the Court or the jury.

However, I desire to waive and do waive the following rights:

1. Waive the reading of the information.
2. Waive the right to be arraigned.
3. Waive the right of trial by jury and request the consent and approval of the Court and of the attorney for the State to such waiver.
4. Waive my right to remain silent.
5. Waive the right to be confronted with the witnesses against me and request the approval of the Court to the stipulation of evidence by waiving the appearance, confrontation and cross-examination of witnesses, or by my further consenting to the introduction of testimony and evidence by stipulation into the record by the attorney for the State by oral stipulation, or by affidavit, or by written statements of witnesses and any other documentary evidence.
6. Waive the ten-day period for preparation after appointment of counsel and the ten-day period in which to file written pleadings after arrest.
7. Waive the right to a pre-sentence report and request that none be made.

I further understand that any recommendation of the prosecuting attorney as to punishment is not binding on the Court. That where there is a plea bargain agreement and the punishment assessed by the Court does not exceed the agreed recommendation, I do not have the right to appeal without permission of the Court except for those matters raised by written motions filed prior to trial.

FOR DEFERRED ADJUDICATION ONLY

I am aware that at any time during this period of probation, the Court may issue a warrant for violation of any of the conditions of this probation and cause me to be arrested. I may be arrested by any probation officer, police officer, or other officer with power of arrest with or without a warrant upon the order of the judge of such court to be noted on the docket of the court. I may be detained in the county jail or other appropriate place of detention until I can be taken before the court. The officer shall report such arrest to the court immediately.

I am aware that upon violation of a condition of this probation, I am entitled to a hearing limited to the determination by the court of Whether it proceeds with an adjudication of guilt on the original charge. No appeal may be taken from this determination. After an adjudication of guilt, all proceedings, including assessment of punishment, pronouncement of sentence, granting of probation and my appeal continue as if the adjudication of guilt had not been deferred.

I request the Court to consider probation any sentence imposed, on the issue of punishment agree that the pre-sentence investigation report of Community Supervision & Corrections may be considered by the Court.

I understand that if I am not a citizen of the United States that my plea may result in deportation, the exclusion of admission to this country, or denial of naturalization under federal law. There have been no promises made to me by my defense attorney, the prosecutor or the Court concerning any stay in the United States.

I have (not) been committed to a mental institution (nor do I) (but I do not) presently have mental or emotional problems, and I believe that I am competent to stand trial and the attorney for the defendant herein acknowledges that counsel believes the defendant is competent and able to assist counsel in the preparation of the defense and that defendant appears to be sane and competent.

I further acknowledge and understand the following admonitions which have been explained to the defendant by the defense attorney prior to an oral plea of guilty or nolo contendere.

That the defendant is charged with a Class B misdemeanor which has a punishment range of:

- a. by confinement in the Travis County jail for a period of not less than _____ and a fine not to exceed _____

b. Other - _____

I further understand the admonitions of the Court and I am aware of the consequences of my plea. I herein admit/ do not contest that I committed the acts alleged in the information in this cause. I plead guilty/no contest to the offense of Driving While Intoxicated. My plea is given freely and voluntarily.

10/8/18

DEFENDANT

Kathy Price

I have consulted with the defendant, advised him of his rights, believe him to be mentally competent; and approve his signing of this plea of guilty or nolo contendere, waiver of a jury, and stipulations.

10-8-18

DATE

ATTORNEY FOR DEFENDANT

Guan Jiong

Before the entry of the defendant's plea of guilty or nolo contendere herein, the above requests, waivers and stipulations are hereby consented to and approved by me, the attorney representing the State.

10/8/18

DATE

ATTORNEY FOR THE STATE

Johnny B. Goode

It clearly appearing to the Court that the defendant is mentally competent and is represented by competent counsel and that said defendant understands the nature of the charge against him and that he has been by the court warned of the consequences of a plea of guilty or nolo contendere including the minimum and maximum punishment provided by law, that the attorney for the defendant and the State consent and approve the waiver of a trial by jury and stipulations in this case, the Court, therefore, finds such plea of guilty or nolo contendere, waiver, and consent to be freely and voluntarily made and accepts the plea of guilty or nolo contendere and approves the waiver of a jury herein and stipulations.

§
§OFFENSE DATE: 12-15-17

IN THE COUNTY COURT

AT LAW NO. 13 OFJUDGMENT OF COMMUNITY SUPERVISION
DRIVING WHILE INTOXICATED

On the 8th day of October, 2018, this cause was called for trial. The San Gabriel County Attorney, the above named Defendant, and the Defendant's attorney, Ryan Jones, appeared and announced ready for trial. The Defendant was arraigned and entered a plea of guilty/not guilty/nolo contendere (circle one) to the charge set forth below and waived trial by jury. The Court admonished the Defendant as required, heard the Defendant's plea and all evidence admitted thereon, and found the Defendant guilty of the offense set forth below.

On the 8th day of October, 2018, the Court further found that the ends of justice and the best interests of the public as well as the Defendant will be served by suspending the imposition of the sentence and placing the Defendant on supervision as herein provided.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED that the Defendant be and is hereby found guilty of the offense of Driving While Intoxicated, and that this is the 1st conviction of this Defendant, as defined by law, which may be considered by this Court in assessing the punishment, which is hereby assessed at confinement in the Travis County Jail for a period of 90 days and a fine of \$ 200.00 together with all costs of Court incurred in this cause.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the imposition of the foregoing sentence be suspended; that the Defendant be placed on supervision for a period of 180 days from this date, that \$ 200.00 of the foregoing fine be probated; and that the Community Supervision granted herein be on the terms and conditions that you, the Defendant shall:

- (1) Commit no offense against the laws of this or any State or of the United States.
- (2) Avoid injurious or vicious habits.
- (3) Avoid the use of all narcotics, habit forming drugs, alcoholic beverages, and controlled substances.
- (4) Avoid persons or places of disreputable or harmful character.
- (5) Report to the supervision officer as directed by the judge or the supervision officer and obey all orders of the Court and the rules and regulations of the Community Supervision and Corrections Department.
- (6) Refrain from disorderly conduct, abusive language, or disturbing the peace while present at the office of the Department.
- (7) Permit the Supervision Officer to visit you at your home or elsewhere.
- (8) Work faithfully at suitable employment as far as possible.
- (9) Do not change residence without permission and report changes of employment to supervision officer as directed.
- (10) Remain within County [or another county] or State of Texas) unless given permission to depart by the Supervision Officer.
- (11) While on community supervision, you must have on your person at all times a current, valid Texas Department of Public Safety photo identification card or a valid Texas Department of Public Safety photo driver's license. You must obtain this photo identification within thirty (30) days of the date of your community supervision.
- (12) Support your dependents.
- (13) Submit a urine or breath specimen at the direction of the Supervision Officer and pay all costs if required.
- (14) Pay to and through the Centralized Collections of the County Tax Office, in one lump sum or in installments, as set forth in the collection schedule, the following:

- a. Court Costs \$ to be determined
- b. Fine \$ 200.00
- c. Attorney Fees \$ 300.00

I, Joe L. Clerque, County Clerk,

San Gabriel County, do hereby

Pay to and through the Community Supervision and Corrections Department of the County, in one lump sum or in installments, as set forth in the collection schedule, the following:

- d. Supervision fee of \$60.00 per month
- e. Restitution \$ 0 to 0
- f. 07/22/24

Narrative

Officer Friendly was driving Car 54 on routine patrol in Charlie Sector, received a dispatch of a disturbance at the Great City Pub. Dispatched reported a confrontation between two females outside the bar in the parking lot.

Upon arrival I witnessed a large crowd of people surrounding two females who appeared to be fighting. I called for back-up and my supervisor. I gave oral commands to the women to stop the confrontation. An elderly male stepped into the fray and separated the women. At that point one female with bright orange hair began to cry and screamed that the other female had assaulted her. The other woman, who had black hair, began to lunge at the victim claiming that "she stole my man and she gets what's coming to her."

I restrained the black haired woman until my back-up arrived. EMS was called as the female with orange hair was bleeding from her face and head. After the two females were separated, I spoke to the victim (orange haired woman). She identified herself as Doe Jayne. She stated that she had met a friend of hers at the bar where she had two beers and had been dancing and socializing. She said that one of her friends offered her a ride home. As they were leaving the bar, the defendant jumped from behind a parked vehicle and began to scream at her. The victim reported that the assailant began to swing wildly at her with her fists. Ms. Jayne reported that, at one point, the suspect kicked her in the shin causing great pain. Ms. Jayne further stated that the suspect struck her in the head and face several times. Ms. Jayne began to become more agitated vowing revenge on the suspect for assaulting her.

I asked Ms. Jayne if she knew the other woman. She stated that while she wasn't certain, she believed that the assailant was the former girlfriend of one of her friends. The friend (Ernie Price) who had offered to give her a ride home. I was unable to interview Mr. Price

as it appears that he left the scene shortly after the confrontation began.

EMS arrived and evaluated Doe Jayne and determined that she needed to be transported to the emergency room. Before transport, I provided Doe Jayne with a copy of my business card and requested that she contact the police department to provide a statement.

After Ms. Jayne was transported I spoke with Kathy Price who was seated in the back seat of my patrol car. I asked Ms. Price if she wanted to tell me her side of the story. Ms. Price began to cry and told me that she struck 'that floozy' and only wished she had hit her harder. She stated that she had suspected that her husband was 'stepping out on her.' She stated she followed him to the Great City Pub. When she walked into the pub she could see Ms. Jayne 'all up on her man' and she had to go outside to calm down before she 'went off on them.' She stated she just wanted to talk to the orange haired woman, and tell her that she was breaking up a family, but when she came out of the bar all cozied up to her man with a smirk on her face, all she wanted to do was 'slap it off of her.'

As Ms. Jayne made a complaint of pain, I placed Kathy Price under arrest for assault causing bodily injury. I secured Ms. Price in the back of my patrol car to await transport.

I attempted to get contact information from witnesses at the bar but none of them admitted seeing the confrontation.

During transport to jail, Kathy Price alternated between crying and screaming curses directed toward Doe Jayne. She further began begging to see her children. I made a referral to the DFPS intake hotline as Ms. Price did not provide me with information regarding the location of her children, and I could not confirm that they were safe. Please see in car video # 123 for details.

Kathy Price was successfully booked into Great City Jail for assault with bodily injury. Follow up assigned to sector detective.

Offense report number=====

July 1, 2023 at 6:45 a.m., I was dispatched to 123 Broadway to meet complainant Kathy Price. Dispatch reported Price called to report that someone had damaged to her vehicle.

I arrived at the scene and spoke with Ms. Price who stated that she last used her vehicle on the evening of June 30th around 8:00 pm to go to the corner store to pick up some grocery items. She reported that after she arrived home, she received a phone call from her acquaintance, Ryan Smith. She stated that Mr. Smith wanted to come by the house and visit her and her new baby, Rose. She said she told him that it was not a good time, and maybe he could come by sometime next week. Ms. Price said that Mr. Smith got upset and said he was coming over anyway. She told him that she would call the police if he did, and stated that the conversation escalated into a shouting match, so she hung up.

Ms. Price stated that after she hung up on Mr. Smith, she put her children to bed. Mr. Smith arrived at her residence around 9:30 p.m. and started banging on her door and yelling at her to open it. She stated that this frightened the children, causing them to wake up and cry. Ms. Price then told Mr. Smith she was calling 911, and he left the premises. She estimates this interaction took about 30 minutes. Ms. Price stated that she did not call for assistance since Mr. Smith left on his own. She stated that the neither she nor the children were physically harmed during this incident. She reported that it took about an hour to calm the children and get them back to bed, at which time, she fell asleep. She had no additional contact from Mr. Smith that night, and she did not step outside her premises until the next morning.

When Ms. Price exited her home at 6:00 a.m. this morning to place her trash can on the curb, she discovered her car had been "keyed" alongside the driver's side door to the vehicle's gas tank located on the rear driver's side of the car. She provided camera footage from her Ring camera, which captured her interaction with Mr. Smith, but did not have a clear view of her parked vehicle. Ms. Price requested a trespass warning be issued to Mr. Smith.

I made contact with Mr. Ryan Smith at 8:15 a.m. at his residence. He confirmed that he spoke to Ms. Price on the evening of June 30, and that he had been to her residence in an attempt to see her. He denied causing any damage to Ms. Price's vehicle and stated that he had not paid attention to the vehicle while he was present, so he could not confirm whether there was any damage to it. I then issued a trespass warning to Mr. Smith and left the premises.

THE STATE OF TEXAS
COUNTY OF SAN GABRIEL

IN THE MUNICIPAL COURT
GREAT CITY

AFFIDAVIT FOR WARRANT OF ARREST AND DETENTION

The undersigned Affiant, who after being duly sworn by me, on oath, makes the following statement:
I have good reason to believe and do believe that:

Ryan Smith DOB 07/01/1992

On or about the 3rd day of July 2021, in the incorporated limits of Great City, San Gabriel County, Texas, did then and there commit the offense of:

Assault Family Violence/Strangulation Felony 3

On July 3, 2021 at approximately 2200 hours, Affiant was on duty as a Great City Police Officer wearing the uniform of my position with shoulder patches and badge on my chest. I was also driving a clearly marked Great City Police Department patrol unit equipped with emergency lights and the word "Police" on the vehicle. I responded to a Disturbance Urgent/Family Violence at 1000 Main St. The caller, later identified as Buzzy Body, told 911 that there was a disturbance at the home of her neighbors and she heard the sounds of crashing. When I arrived on scene I proceeded to the front door of the residence.

A young female, later identified as Dawn Risen, answered the door. When she opened the door, I was able to see inside. There was a male sitting on the living room couch, and it there were various items that appeared to have been thrown all over the room. Ms. Risen stated that there was no problem and that she and her boyfriend had been arguing but no physical violence had occurred. I observed red marks and scratches on the neck and chest area of Ms. Risen, and her voice sounded strained and raspy. She appeared to have been crying as her eyes were red and swollen. I asked Ms. Risen to step to the end of the sidewalk and I asked the male to come to the door.

The male, later identified as Ryan Smith, came to the door and stated that his girlfriend, Dawn Risen, had attacked him and struck him. He stated that she had thrown a chair at him. When I observed the chair in question, it appeared to be a lounge chair. Ms. Risen was approximately 5 feet tall and appeared to weigh less than 100 pounds. Smith further stated that Risen had pushed him down, and he was in fear for his safety. I asked Smith about the marks on Risen's neck and throat and he stated that "the crazy chick had done that to herself."

I reapproached Risen and asked her about the obvious marks on her neck. Risen began to cry and stated that she had lied to me earlier when she said nothing physical happened. She said that Smith had choked her until she started to pass out and she saw stars. She said she started desperately pulling and scratching at his arms to get him to stop.

As she spoke to me, I again noted that her voice was raspy and strained, and it appeared that she was experiencing shortness of breath as she spoke. Risen stated that she was in fear for her life when Smith had his hands around her neck and the assault caused her pain. Risen stated that she and Smith had lived together for about four months at this residence.

Due to the visible injuries and her complaint of pain, I place Ryan Smith under arrest for family violence strangulation a third degree felony.

Affiant 

Sworn and subscribed to before me by the said
Affiant on this the 3rd day of July 2021

Peace Officer in the State of Texas

On this, the 3rd day of July, 2021 I hereby acknowledge that I have examined the foregoing affidavit and have determined that probable cause exists for the issuance of warrant for the individual accused therein.

ABC Family Counseling Therapeutic Progress Notes on Kathy Price

ABC FAMILY COUNSELING
111 Avenue A
Great City, TX 77002
(501) 555-1234

Session 2

Client Name: Kathy Price
Date: 10/15/2018
Time: 10:00 AM
Therapist: [Redacted]

Session Summary:
Kathy Price, 45 years old, female, was seen for her second session. She is currently unemployed and lives with her 18-year-old son. She has a history of major depressive disorder and is currently taking Zoloft. She reports feeling better since starting medication but still struggles with low energy and difficulty concentrating. She has a supportive family and good friends. She is motivated to continue therapy and has agreed to work on cognitive behavioral techniques to manage her negative thoughts. She will be scheduled for her next session on 10/22/2018.

Referral Source: [Redacted]
Referral Date: 10/1/2018
Referral Reason: Major Depressive Disorder

Session 3

Client Name: Kathy Price
Date: 10/22/2018
Time: 10:00 AM
Therapist: [Redacted]

Session Summary:
Kathy Price was seen for her third session. She reports that her mood has improved since the last session. She has been able to engage in some activities and has noticed a decrease in her negative thoughts. She is still struggling with low energy but feels more motivated. She has been able to identify some of her negative thoughts and has started to challenge them. She has agreed to continue working on cognitive behavioral techniques and will be scheduled for her next session on 10/29/2018.

Referral Source: [Redacted]
Referral Date: 10/1/2018
Referral Reason: Major Depressive Disorder

ABC FAMILY COUNSELING

111 Avenue A

Great City, TX 75000

(987) 995-0450

Session Notes:

<u>Client's Name:</u>	Kathy Price	<u>ID Number:</u>	512-461-4991
<u>Day of Service:</u>	September 12, 2024	<u>Medicaid #:</u>	12-34-56-78
<u>Length:</u>	1 hour	<u>Caseworker:</u>	Ms. C. Caseworker
<u>Clinician:</u>	Consuela Counselor	<u>Modality:</u>	Individual Cognitive Therapy

Goals of Treatment or Ongoing Substantive Therapeutic Issues:

The client will become more accepting of her early childhood experiences and how it affects her current decision making. The client will increase her self-awareness, self-concept, and self-esteem. The client will become a more protective parent.

Issues addressed in session today:

Relationships; historical self; sobriety.

Session Summary:

The client began her session by saying that she is a victim of childhood physical and sexual abuse. She talked about telling her mother at age 8 and that her mother chose not to believe her. The client talked about her own children. She is clearly bonded to them. However, she does not appreciate the severity of her choices regarding substance abuse and lack of attention to the children's basic needs, and the effect of this on the children. Client talked about her drug history and attributed it to "getting involved with the wrong men" without taking personal responsibility for her drug use. I encouraged her to see a psychiatrist to address possible need for psychotropic meds to address anxiety and depression. Client focused on CPS "having already made up their minds" about her instead of taking responsibility for her actions.

Strategies and observations:

The client arrived on time and dressed appropriately. She began with rapid speech and was encouraged to slow down, to moderate effect. The client appears to be hyper, mildly manic. The client did present good information and appears to be a good historian. Continue to gather more information and build rapport.

Session Notes:

<u>Client's Name:</u>	Kathy Price	<u>ID Number:</u>	512-461-4991
<u>Day of Service:</u>	September 26, 2025	<u>Medicaid #:</u>	12-34-56-78
<u>Length:</u>	1 hour	<u>Caseworker:</u>	Ms. C. Caseworker
<u>Clinician:</u>	Consuela Counselor	<u>Modality:</u>	Individual Cognitive Therapy

Goals of Treatment or Ongoing Substantive Therapeutic Issues:

The client will become more accepting of her early childhood experiences and how it affects her current decision making. The client will increase her self-awareness, self-concept, and self-esteem. The client will become a more protective parent.

Issues addressed in session today:

Relationships; parenting; sobriety.

Session Summary:

Client began session by saying that she will do what it takes to have her children returned to her. She spoke caringly about each of her children and what she missed about them. Client says she is more committed than ever to staying clean and sober. She volunteered that she has slowed down her alcoholic intake to 3 beers a week, one at a time, from what was once a 12-pack at a time habit. Client ended session by saying that she had realized it was time to straighten out her life and be more responsible.

Strategies and observations:

The client appeared involved in the session. She was forthcoming with information about herself (past traumatization and present struggles). Her self-awareness is increasing. Client is clearly missing her children. Client was asked to explore her relationship history and her current relationships with regard to substance abuse and parenting issues. Client was asked to do a daily reflection regarding her youngest child. Client was given a folder and encouraged to do her assignments. Good rapport with client has developed.

Goals of Treatment or Ongoing Substantive Therapeutic Issues:

The client will become more accepting of her early childhood experiences and how it affects her current decision making. The client will increase her self-awareness, self-concept, and self-esteem. The client will become a more protective parent.

Issues addressed in session today:

Relationships; maintaining sobriety; housing.

Session Summary:

Client started by saying that she had just completed mediation in her case, and that it was a very upsetting experience. Client was unaware that the Department was "so serious about taking them [her children] away" and that afterwards, she was so afraid that the Caseworker wouldn't allow her baby to come home with her that Client divulged the name of the baby's father for the first time. Client is adamant that the baby be placed home with her and claims that she is "completely ready to take her back forever." Client admits that placement of Rose with Mr. Smith's family is a distant back-up plan, as it is "better that Rose be with blood than with those foster people who are trying to take her away and have her calling them "mama" and "dada."

Client also stated that especially since Mediation, she has been favoring the idea that her sons could stay in their current relative placements. "At least they are with family, and I know I would be in their lives." Client states that her visits with her sons are going well and that she "mostly gets along" with the kin who are caring for her two eldest children.

Client also stated, "a daughter belongs with her mother. The boys are tougher, but my little Rose needs to be with her mother. I can take care of one child." She expressed that she felt like the Department was "trying to steal her baby away and give her to the foster family because they have money." Client began to cry and stated that "they aren't even her blood. Family should stay with family. A daughter belongs with her mother."

Client showed remorse that she had gotten arrested and that the children had been by themselves while she was in jail. She admitted it was not "her finest moment."

Client was asked if she had pursued her assignment to do a daily reflection regarding her youngest child, Rose. Client returned the folder with several journal-like entries in it. She said she would have completed more of them but that it was “exhausting to keep my job, attend classes, do all those things that the Caseworker thinks I need to do.” Client’s entries showed affection for her child, but only moderate insight into the particular developmental needs of a child of that age.

Client confided that she was very concerned about her current housing situation and said she was trying to save up all she can to find a place that would be acceptable to the Caseworker for her and Rose to live in. She mentioned that she feels like all the Caseworker does is judge her and build up a case against her instead of trying to help her.

Based on a recent drug test which showed Client’s use of marijuana, we discussed whether a parent who consistently tests positive for marijuana provides a physically and emotionally safe home and environment for toddlers. I explained that marijuana is an addictive substance and addictive substances have a way of taking a person’s attention away from important matters. Having children, especially very young children, takes a lot of work and a lot of attention. Creating a physically and emotionally safe home and environment for them takes a lot of work. Client agreed and volunteered to increase her NA meetings to one a day for the next month.

Strategies and observations:

Client appeared very involved in our session. She continues to cite benefits from attending. She has several serious situations going on in her life at present: maintaining sobriety, living situation, paying her bills, transportation issues with attending the various requirements of her Service Plan, and especially her pending housing crisis. Client was encouraged to address these situations in a positive manner. Did relaxation exercise with client. Client seems committed to making the changes which the Department is requiring of her. However, I am concerned that if she doesn’t secure housing soon that she may be tempted to relapse.

Kathy,

What happened to you today for the visit? We waited for 15 minutes, and you never showed, and you didn't answer your phone. The children were very upset especially Ben. You will have to start showing up 15 minutes before the visit begins, so the children aren't waiting around for you.
